SETN 2022
September 7-9, 2022 - Corfu, Greece

12th Conference on Artificial Intelligence

SETN 2022
September 7-9, 2022
Corfu, Greece

https://hilab.di.ionio.gr/setn2022/

SETN conferences are biennial, organized by the Hellenic Artificial Intelligence Society (EETN). SETN has been established as one of the most prominent forums for Greek and International AI scientists to present original and high-quality research on emergent topics of Artificial Intelligence. The official language of the conferences is English. SETN 2022 is organized by the Hellenic Artificial Intelligence Society (EETN) in collaboration with the Humanistic & Social Informatics Laboratory of the Department of Informatics of the Ionian University.

SETN 2022 highly encourages international participation. The Research Track is intended for unpublished papers, with substantial, novel research and technology in ANY area of AI either Theoretical or Applied one. The 12th EETN Conference on Artificial Intelligence (SETN 2022) will be held in Corfu, Greece between September 7-9, 2022.

Aim and topics
SETN 2022 aims to address several issues in any area of Artificial Intelligence, from fundamental theoretical work to applied technologies. Topics of interest include, but are not limited to:

<table>
<thead>
<tr>
<th>Topics in Theoretical AI Research &amp; Technology areas</th>
<th>Topics in AI Applied Research</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Explainable AI</td>
<td>• AI for agricultural</td>
</tr>
<tr>
<td>• Verifiable AI</td>
<td>• AI in health</td>
</tr>
<tr>
<td>• Physical AI</td>
<td>• AI for citizen services and education</td>
</tr>
<tr>
<td>• Integrative AI</td>
<td>• AI for robotics</td>
</tr>
<tr>
<td>• Collaborative AI</td>
<td>• AI for industry and manufacturing</td>
</tr>
<tr>
<td>• Algorithm selection</td>
<td>• AI in autonomous driving and mobility</td>
</tr>
<tr>
<td>• Computational logic</td>
<td>• AI for art and music</td>
</tr>
<tr>
<td>• Computer vision</td>
<td>• AI for environment and sustainability</td>
</tr>
<tr>
<td>• Constraizts and SAT</td>
<td>• AI for IoT</td>
</tr>
<tr>
<td>• Decision support system</td>
<td>• AI for cybersecurity</td>
</tr>
<tr>
<td>• Heuristic search and game playing</td>
<td>• AI for telecommunication</td>
</tr>
</tbody>
</table>
SETN 2022
September 7-9, 2022 - Corfu, Greece

- Knowledge representation and reasoning
- AI for finance and insurance
- Machine learning (deep learning, reinforcement learning, etc)
- AI for law
- Multi-agent systems
- AI in retail and ecommerce
- Planning and scheduling
- AI in software engineering
- Speech and signal processing
- AI in Human Resources
- Natural language and dialogue
- Trusted and privacy preserving AI
- Probabilistic model
- AI and games
- AI, media and the public sphere
- AI and decision making
- Cross-disciplinary application of AI

Important dates:

Submission of full papers: March 12, 2022
Notification of acceptance: May 9, 2022
Submission of camera ready: June 10, 2022
Main Conference: September 7-9, 2022

COVID-19 update:

Kindly note that due to the ongoing coronavirus pandemic situation, SETN 2022 will continuously evaluate worldwide health conditions and more respective details will be provided closer to the conference dates.

Proceedings/Publications

All accepted papers will be published by ACM (International Conference Proceedings Series) and be available through the ACM Digital Library (approval pending). Extended versions of selected high-quality Research Track papers will be considered for possible publication in a special issue of an AI international peer-reviewed and indexed journal. SETN Proceedings have always been indexed by dblp, Scopus, ESCI & Google Scholar. This makes the SETN conference one of the publication venues with very high visibility and impact over the last years.
